DETAILED ACTION

Acknowledgements

1. This action is in reply to the Amendment filed on October 19, 2009.
2. Claims 17, 26, 45-46, and 50-70 were cancelled.
3. Claims 1-16, 18-25, 27-44, and 47-49 are pending.

Election/Restrictions

4. Regarding the previous restriction requirement mailed on July 23, 2009, Applicant's election without traverse of Group I, claims 1-49, in the reply filed on October 19, 2009 is acknowledged.
5. Regarding the current pending claims 1-16, 18-25, 27-44, and 47-49, restriction is required under 35 U.S.C. 121 and 372.
6. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
7. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
 - a. Group I, claim(s) 1-16, 18-25, and 29, drawn to receiving geographic location data in an electronic seal.
 - b. Group II, claim(s) 27-28, 30-44, and 47-49, drawn to verification of a log of an electronic seal.
8. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or

corresponding special technical features for the following reasons. Specifically, Group I requires receiving geographic location data from a location recording device associated with one of a first and second entity, which Group II does not. Group II requires decrypting a digitally signed certificate, which Group I does not.

9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

10. The examiner has required restriction between product and process claims. Where applicant elects claims directed to the product, and the product claims are subsequently found allowable, withdrawn process claims that depend from or otherwise require all the limitations of the allowable product claim will be considered for rejoinder. All claims directed to a nonelected process invention must require all the limitations of an allowable product claim for that process invention to be rejoined.

11. In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103 and 112. Until all claims to the elected product are found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not

commensurate in scope with an allowable product claim will not be rejoined. See MPEP § 821.04(b). Additionally, in order to retain the right to rejoinder in accordance with the above policy, applicant is advised that the process claims should be amended during prosecution to require the limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder.** Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.
